## Finishing

1. For reversible runner, cut a piece of thin cotton batting or fleece that is slightly larger than the runner. Center one runner on each side of fleece being careful that orientation of each runner is correct. Quilt with an overall quilting design.
2. Trim layers even with each other. It's not unusual if you need to trim a slight bit from the edges of one or both of the runner borders.
3. Prepare binding using the (C) 2 1/2" strips. Sew to runner using your preferred method.
4. For single runners, layer each runner separately with batting and backing. Quilt as desired. Trim layers even with runner tops.
5. Prepare binding using the (C) 2 1/2" strips. Sew to runner using your preferred method.
